- A project **backed by** Bitgert Startup Studio.
- Ecosystem partners of **CoreDAO, Linea and Bitgert Brise.**

The Market Problem

The global food crisis and insecure are affecting millions of people around the world.

Farmers are limited resources and lack of new technologies in farming and marketing.

Many agriculture lands are not farming and stuck due to limited funds.

Limited trading channels for investors in agricultural sectors.

Our Solutions

What We Offer

NFT for Real-world Assets (RWA)

Borneo Plantation is the Miidas flagship RWA-NFT investment project, with a groundbreaking concept of 'You Invest, We farm'. Miidas will provide the lands and farmers, where investors can easily invest and earn high yield rewards.

Direct P2P Investment

Public can invest directly in the agricultural projects via RWA-NFT, with higher security and stable profitability returns. Eliminating the complication and bureaucracy from the traditional systems.

Agricultural
Sectors

Invest in Borneo is a joint-venture program by Miidas and Sabahan Agriculture Organization (Sabahan.org). Our objective is to provide a bridge between Web3 investors and Real-world Assets (RWA) in Agricultural sectors, the world's largest industry.

Our Advantages

- The world 1st all-in-one RWA NFT platform including marketplace, launchpad and staking pool for agricultural sectors.
- Built on Core chain, one of the fastest growing EVM-compatible layer-one blockchain, with 20 million potential users.
- **Miidas Borneo Plantation Projects:**
 - Owning 100 acres of agriculture lands.
 - Farming 20+ type of crops.
 - With 50+ farmers and 100 distribution channels ready.

The Benefits

Stable Profitability

The agriculture sector offers a stable profitable opportunities. Due to the factors of food crisis and high market demand, it can contribute to stable and long-term profitability.

Ease of Accessibility

Investing in agricultural sectors are now within reach. Plus, the 24/7 trading availability on the blockchain adds to the convenience.

Near-Zero Settlement Costs

Say goodbye to hefty transaction fees and tedious paperwork. RWA tokenization reduces settlement costs significantly.

Increased Transparency

Thanks to blockchain technology, all transactions are recorded on-chain, eliminating fraud risks and ensuring equal market information for everyone involved.

Miidas Obligation

To provide the RWA NFT smart contract and trading platform for agricultural sectors.

To provide the lands and farmers for the RWA agricultural projects.

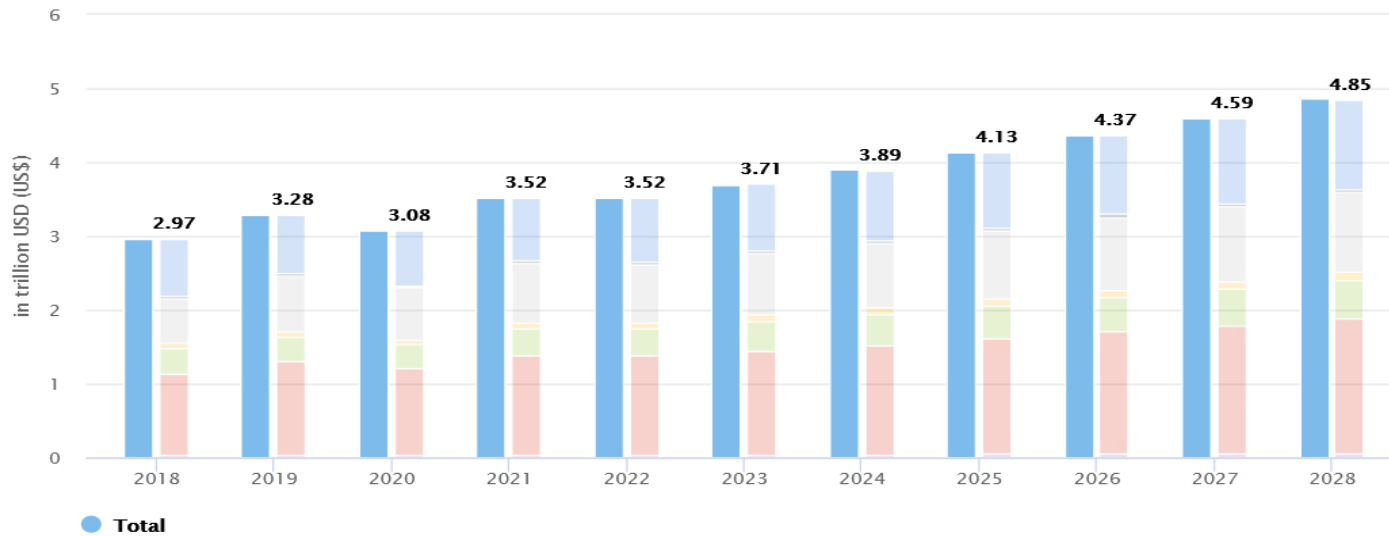

To provide KYC verification for buyers.

Liquidity pool to be ready for dividend / rewards / trading for RWA NFTs.

The Market Potential

Gross production value in Agriculture market is projected to amount to US\$3.90tn in 2024. An annual growth rate of 5.66% is expected (CAGR 2024-2028), resulting in gross production value of US\$4.86tn in 2028.

Notes: Data shown is using current exchange rates. Data shown reflects market impacts of the Russia-Ukraine war.

Most recent update: May 2023

The Market Potential

Cocoa price hits all-time high to close over 11,000 for the first time ever.

Our Goals

To provide decentralized financing for real-world assets (RWA) especially in agricultural sectors.

To eliminate the cumbersome paperwork, making RWA transactions seamless and efficient.

To allow smaller investors to enter markets that were previously accessible only to the wealthy.

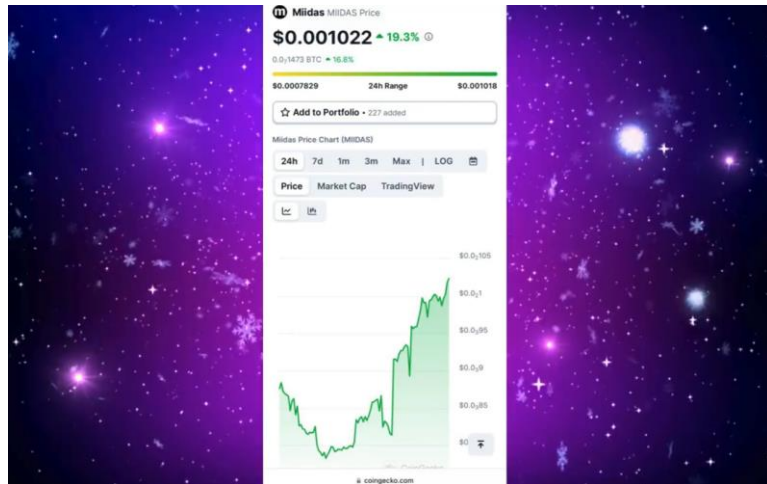

To become the industry pioneer to benchmark the policies and regulations.

Project Roadmap
